PROFESSIONAL DEVELOPMENT TRAINING

Developing Effective Telecare

A day course for practitioners, managers, policy staff and other stakeholders

BASINGSTOKE – WED 2ND APRIL
LEEDS – WED 23RD APRIL
BELFAST – WED 28TH MAY TBC
CARDIFF – TUE 3RD JUNE

Telecare is not a fad or fashion. It is a key to the future for thousands of people.

BUILDING ON SUCCESS

Following the success of our courses in 2007, we are again offering the opportunity for practitioners and policy makers to explore the ways that we can develop effective telecare services.

The new course explores a range of initiatives in telecare and, in particular, addresses some of the challenges around telehealth. All participants are provided with an up to date portfolio of information and signposting to further source material.

AGENDA

9.30 – 10.45am
Telecare and 'Assistive' Technologies
The Challenge and Opportunity of Telehealth

11.00 – 12.30pm
Case Studies: Dementia, COPD, Learning Disability, Epilepsy
Lifestyle and Activity Monitoring

1.30 – 3.00pm
Ethics, Consent and Telecare
Needs Assessment and Response Protocols

3.20 - 4.30pm (approx)
The Telecare Process
A New Strategic Role for Telecare

WHO SHOULD PARTICIPATE

Practitioners, managers, policy staff and other stakeholders.

ABOUT US

The course tutor is Malcolm Fisk PhD. He has extensive experience of telecare and wrote the 'definitive guide' *Social Alarms to Telecare: Older People's Services in Transition*. Malcolm is Chairman of the *Telecare Services Association* and of the *National Partnership Forum for Older People in* Wales. He is Managing Director of *Insight Social Research Ltd*.; an experienced facilitator and frequent speaker on telecare and related issues.
